

## rescue harness

The **Rescue harness** from **Tractel**® combines safety, versatility and comfort. The special Y-shape design includes a simple attachment point making an easy and quick donning. The strap configuration allows better fastening to the body and gives the worker extra mobility when bending.

# rescue harness

## the safety harness with superior fit for all day comfort and quick intervention!

### TRACX PAD

- Adds support and distributes the loads evenly to the shoulders to reduce worker fatigue

### STERNAL AND WAIST D-RINGS

- Improves connection options
- Ideal for ladder climbing, rescue, controlled descent and positioning
- Lightweight

### TRIPLE-LOCKING ALUMINIUM CARABINER

- Increases safety level
- Lightweight

### INDEPENDENT LEG STRAPS

- Leg strap design moves independently allowing complete freedom of movement and flexibility

### VISUAL FALL INDICATOR

### LARGE AND BENT ALUMINIUM SIDE D-RINGS

- Improves accessibility
- Facilitates connection options
- Will not interfere in confined spaces when not in use
- Ideal for certain positioning needs
- Lightweight

### LEG PADS

- With auto buckle

### BENEFITS

- Simplifies rescue attachment
- Keeps work-position centered
- Unrestricted leg movement
- Increased mobility
